ENCLOSURE IN GRAPHICS REGISTER

1. Photographs of the reconstructed Albert Bridge (former Koenig Friedrich-August Bridge) in Plauen (M 51/ K 12) are attached. *
The bridge spans the Syra Valley in the western section of Plauen.
2. The bridge is an arched brick structure with a span of 90 meters, a roadway 7 meters wide and two sidewalks. It is 120 meters long and has a load capacity of over 60 tons. *

25X1A

- * [REDACTED] Comment. The bridge, which was damaged by five bomb hits in the spring of 1945, was reconstructed in its previous form and opened to traffic on 22 December 1949. For photograph of bridge see Annex.
